

## FUKAGAI STILL MISSING

(Editor's note: As reports from the Internal Security Division this morning indicated that Fukagai was still missing. Project Director Charles F. Ernst released the following signed statement to the press).

It is planned to continue a systematic search and inquiry until the whereabouts are determined of Kozo Fukagai who has been missing since Sunday evening, December 20.

More than a thousand of the residents assisted by airplanes, horsemen, shepherders, and a score of the Administrative staff including school teachers have gone over the entire area surrounding Mt. Topaz.

Beacon fires lit the whole mountain area Sunday and Monday nights and buglers drawn from the Boy Scout troops have been on duty regularly in the hope that either by sight or by sound the missing man could be directed to the searching party.

It is planned to maintain a small searching party of young men to comb the floor of the mountain and the vicinity near by where Kozo was last seen.

A separate organization has been created to continue the search without interrupting any of the necessary regular functions required to operate the City of Topaz.

The parents of the missing man have frequently expressed their gratitude to the residents and the Administration for the efforts that have been made to return their son to them.
